Technology that disappears *into the design.*

Mazzy Automations is a South African automation company specialising in the design, supply and installation of intelligent automation solutions for private residences, hospitality environments and industry.

We bring together technology, security, lighting, climate control, entertainment and access systems to create connected environments that improve everyday living and business operations. From consultation and technical design to installation, commissioning and ongoing support, we manage the process from concept to completion.

WHO WE WORK WITH

- Homeowners and luxury property owners
- Airbnb hosts and property managers
- Hotels, lodges and hospitality groups
- Architects and interior designers
- Property developers and construction companies
- Commercial businesses and industrial facilities

WHY MAZZY AUTOMATIONS

- Tailored solutions designed around your requirements
- Professional consultation and technical planning
- Integrated technology from one automation partner
- Quality hardware and installation
- User-friendly control through an app, wall panel or voice
- Training, ongoing support and aftercare

OUR PROCESS

i **Consult**
Your goals, space and investment.

ii **Design**
A tailored plan, drawings and proposal.

iii **Supply**
Quality, tested hardware.

iv **Install**
Meticulous installation and set-up.

v **Care**
Training, updates and aftercare.

We begin by understanding your requirements and investment, develop a suitable technical solution, provide a detailed quotation and manage the installation through to handover.
