Mazzy Automations
An introduction.
Your smart-technology partner for homes, hospitality and industry.

MAZZY AUTOMATIONS
your technological helping hand

Technology that disappears *into the design.*

Mazzy Automations is a South African automation company. We design, supply and install intelligent automation for private residences, hospitality and industry — from consultation to ongoing support.

OUR VISION

To develop cutting-edge automation solutions that transform homes and the way businesses operate and thrive — in South Africa and the world at large.

OUR MISSION

To design, develop and deliver innovative automation solutions that exceed client expectations, drive operational excellence and foster long-term partnerships.

OUR PROMISE

We always talk with our clients first — understanding what they wish to achieve and what they plan to invest.

MAZZY AUTOMATIONS
your technological helping hand

Traditional spaces *ask too much of you.*

Keys and manual access

Lost keys, copied keys and someone always having to be on site to let people in.

No visibility when away

You only find out about a problem at your property once you are back.

Wasted energy

Lights and air-conditioning left running in empty rooms.

Disconnected systems

A separate remote, app or supplier for every device.

Our smart automation *solutions.*

01

Smart home automation

- Smart lighting and glass touch switches
- Automated curtains and blinds
- Voice and mobile-controlled systems
- Centralised home control panels
- Smart climate and temperature control

02

Intelligent security & access

- Fingerprint, facial recognition and PIN smart locks
- Remote access and gate control
- CCTV surveillance and monitoring
- Video intercoms and smart doorbells
- Alarm systems and motion sensors

03

Hospitality & Airbnb automation

- Remote guest access and self check-in
- Smart guest-room controls
- Automated lighting and climate settings
- Remote property monitoring
- Energy-saving automation

04

Audio-visual & entertainment

- Multi-room audio systems
- Home theatre solutions
- Integrated entertainment control
- Connected audio-visual environments

05

Industrial & commercial automation

- AI and robotic systems
- SCADA and DCS systems
- Servo and IoT solutions
- Commercial access control
- Integrated surveillance and communications

MAZZY AUTOMATIONS

Security, comfort *and convenience.*

Security

Smart locks, CCTV, intercoms, alarms and sensors, linked to your phone.

Comfort

Lighting, curtains and climate set to the moment.

Convenience

One app, a wall panel or your voice controls it all.

Homes, Airbnb *and hospitality.*

Private homes

Scenes for every moment, peace of mind anywhere, and technology that stays out of sight.

Airbnb & rentals

Keyless entry, self check-in and remote monitoring across your portfolio.

Hotels & lodges

Guest-room control, Welcome Mode and energy saving when rooms are empty.

Sound *and entertainment.*

- Multi-room audio systems
- Home theatre solutions
- Integrated entertainment control
- Connected audio-visual environments

SOUND BRANDS WE WORK WITH

DENON · MONITOR AUDIO · polk · WiiM · QED · Bowers & Wilkins · marantz · ROTEL · SVS · MARTIN LOGAN · Paradigm · episode

06 — WHOLE-HOME AUDIO

Which speaker *goes where.*

1. **Soundbar or centre speaker**
   Under the TV. Carries dialogue.
2. **On-wall front speakers**
   Either side of the TV.
3. **Subwoofer**
   Beside the TV unit. Deep bass.
4. **In-ceiling surrounds**
   Above the sofa.
5. **In-ceiling speakers**
   Kitchen, dining and bed.
6. **Moisture-resistant**
   For the bathroom.
7. **Bookshelf or wireless**
   On the desk or a shelf.
8. **Control panel & streamer**
   Picks room and music.

HOW IT CONNECTS

Speaker cable. The amplifier (A) drives the lounge cinema speakers.

Music zone. A second zone feeds the in-ceiling speakers, room by room.

Control. Wall panel and app switch rooms and sources.

07 — BEYOND THE HOME

Commercial *and industrial.*

SCADA & DCS

Central and distributed control of plants and sites.

Robotics & servo

Manipulation arms, mobile platforms and exact motion control.

AI & IoT

Intelligent software and connected sensors that act on data.

Access & security

Card, PIN and biometric access, cameras, alarms and networks.

MAZZY AUTOMATIONS
your technological helping hand

From consult *to care.*

i

Consult

Your goals, space and investment.

ii

Design

A tailored plan, drawings and proposal.

iii

Supply

Quality, tested hardware.

iv

Install

Meticulous installation and set-up.

v

Care

Training, updates and aftercare.

We begin by understanding your requirements and investment, develop a suitable technical solution, provide a detailed quotation and manage the installation through to handover.

MAZZY AUTOMATIONS
your technological helping hand

Partnership *opportunities.*

Architects & designers
Early design input so technology complements the architecture.

Developers & builders
Integrated automation packages for new developments.

Property managers
Remote access and monitoring across a portfolio.

Hospitality groups
Guest-room automation and access management.

Industry
Control systems, access control and integrated communications.

Homeowners
A complete home system, or a phased installation.
